**Monday 10<sup>th</sup> May 2021 (Pre-Conference Activities)**

Pre-Conference Workshops:

13:30 – 15:00 NL

Workshop Leader:  
**Roger Grimes**,  
Data-Driven  
Defence Evangelist,  
KnowBe4

Learn How To Forensically Examine Phishing Attacks

Not all phishing attempts are immediately obvious. Learn how to become your own cybercrime investigator, forensically examining phishing emails, SMS messages, and voice phishing calls to determine the who, the where, and the how.

In this presentation, Roger Grimes, KnowBe4's Data-Driven Defense Evangelist, will show you in real-time with real examples how to determine if something is malicious even when it's not quite so obvious! You'll learn:

How to forensically examine phishing emails and identify and confirm other types of social engineering

Learn forensic tools and techniques you can use right now

Learn how to better investigate rogue smishing, vishing, and social media phishes

Get inside the mind of the hacker, learn their techniques, and how to spot phishing attempts before it's too late!

*Main Conference Day*

*Tuesday 11th May 2021*

09:00  
NL Time

**Future Convergence: How Can We Bring Business and Cyber Security Together?**
